Accession to Networks of Responsible Suppliers

Every company that has filled in the
GREEK SUSTAINABILITY CODE
& has received

The **Sustainable Development report**
The **Declaration of Conformity** and the **Validation Table**
of the **GREEK SUSTAINABILITY CODE**

can

- ✓ highlight its **responsible operation** towards its clients
- ✓ Participate in the International Network of **ECOVADIS**

If you have been asked by your clients to prove that your business operates in a responsible way, you can use as a reporting framework:

- **The Sustainable Development Report**

Which proves the holistic approach by which your company applies the strategy of sustainable development and responsible business in its operation.

- **The Declaration of Conformity & the Validation Table**

They are given by QualityNet Foundation as validation documents for official use towards third parties.

The **GREEK SUSTAINABILITY CODE**

which is based upon the

GERMAN SUSTAINABILITY CODE

enjoys the benefits and privileges that derive from international agreements as a result of the general acceptance of the Code as a pan-European reporting framework of sustainable development & responsible business

Every Company that participates in the **GREEK SUSTAINABILITY CODE** can be incorporated in the **International Network of ECOVADIS**

- ✓ The **German Sustainability Code** consists of 4 pillars & 20 criteria which are covered to a large extent by the methodology of **EcoVadis**.
- ✓ The methodology of **EcoVadis** covers **85%** (17 out of 20 criteria) of the **German Sustainability Code**.
- ✓ The **German Sustainability Code** covers **61%** (13 out of 21 criteria) of the **EcoVadis** methodology.
